### Inquest in Sullivan Poisoning Case Set for this Afternoon

—Joseph S. Grills Under Bonds of \$1000—Plans for Opening of League Season—New Steamboat for Westerly River Traffic—Strike May be Settled—D. A. R. Prize Winners.

Acting upon the report of Medical Examiner J. Howard Morgan, specifying that an analysis showed that the whiskey drunk by Daniel Sullivan just prior to his death was composed of wood alcohol and that tests made revealed the same kind of poison in the dead man's stomach, Coroner Everett A. Kingsley will hold an inquest this (Friday) afternoon at 2.30 o'clock in the Town hall. Several of the witnesses who testified before the grand jury last Tuesday are among those summoned at the inquest. Attorney General Henry C. Kingley has deputized Coroner Eugene Lincoln of Providence to represent the state at the inquest, and he will conduct the general inquiry, assisted by Coroner Kingsley to get all obtainable facts in connection with the death of Daniel Sullivan.

Joseph S. Grills of Westerly, indicted on two charges of embezzlement by the grand jury in the superior court at Kingston, Tuesday, was arraigned on Thursday morning. He is charged with misappropriating money left with him for deposit in the Bank of Rome. Grills pleaded not guilty and furnished a bond of \$1,000 for appearance for trial.

Manager Richard Mitchell of the championship Westerly team of the Rhode Island-Connecticut Baseball league is planning special ceremonies for the opening of the league season in Westerly, May 7, when the game will be with the White Sox team. There will be a parade of players headed by the Westerly band, which will also furnish music during the progress of the game, and in connection with the raising of the American flag presented by Charles B. Gavitt and the championship pennant won last season. The flag pole which is 55 feet in length will be placed in position Saturday. At present Manager Mitchell has a strictly local team, but has lines out for two pitchers and has secured others who will make a try for other positions, it being the intention of the manager to have a winning pennant team this season.

On Saturday of next week the Westerly will play an exhibition game with the New London team of the Trolley league, and the local team will probably be made up as follows: J. Foley c, Chase 1b, Bliven ss, Allen 2b, Bryer cf, Bentley lf, Payne rf, Noyes 3b, Lynch p. With Foley and Chase on the team Westerly will have two of the best catchers in the league.

The owners of the steam tug Westerly have received plans for a new steamboat to take the place of the Westerly that has been doing a towing and passenger business for over a quarter of a century, having practically a monopoly of the town business in the Pawcatuck river. The new boat will be of modern build and fully equipped for the business in which which she is to be engaged, and will probably be launched before the Pawcatuck is again frozen over. It has been practically decided to have a Babcock & Wilcox boiler installed in the new boat.

It is said that the alleged owner is to pay the railroad demurrage and will take legal steps to get possession of his property and make effort to collect damages from those who caused the issuance of the attachments.

There was a large attendance at the annual rally and roll call of the First Baptist church, Thursday evening, which proved an event of more than ordinary interest. There was a special order of exercises for the occasion, which included the following pleasing features and orchestral selections: Solos by Ethel D. Stillman and William H. Browning; anthems by the choir; address, Loyalty to the Church, by Albert G. Martin; address, Our Opportunity, by George W. Rigler, D.D. address, The Efficient Church, by Ethel Wilcox. ## There are 3 Features in Crawford Ranges

which make them superior to any others

1. The Single Damper
2. The Oven heated by cup-joint flues
3. The Two Hods in the base

Either of these features is worth the price of the range. The Single Damper is the greatest help in cooking ever invented. One motion—push the knob to "kindle," "bake" or "check"—the range does the rest.

The Oven is heated by the cup-joint flues all over alike; no "cold corners," no "scorching spots." Quickest and surest baker.

The Two Hods in the base (patented) is a wonderful trouble-saving feature. The ashes fall through a chute into a Hod which is easy to empty. The Coal Hod is beside it.

Gas Ovens and Broilers for end or above range if desired.
